

SICK IN SANTIAGO.

We have had but one land fight, a fight which would have been denominated a skirmish in war times, but which resulted in a regular war victory far reaching in its results. But the victory at Santiago is blurred by an after shadow. If the reports reaching this country are reliable, General Shafter should move his forces back into the high mountains as speedily as possible or otherwise the government should get the men on to transports and move to North Atlantic waters as rapidly as possible. The Spanish soldiery once gone, a very few men and officers, who should be immunes, can administer the civil affairs of Santlago. The nation is becoming uneasy over the reflection that the boys who won may all die of that dreadful scourge, yellow fever. If the ambition and best wishes of the people were with our men in front of Toral's forces their prayers are with them now for the apprehension of disaster is much greater. Whatever can be done for their comfort should be done without reference to cost or inconvenience. It is a serious thing to be sick away from friends and home comforts, but to be down with the yellow fever 'neath a tropical sun is an affliction beset with dangers greater than those incident to the thick of battle.

"LET US HAVE PEACE."

Notwithstanding the intexicating reflection that no nation of any time ever within so brief a period as three number of acquisitions ahead, with the risk of encountering just such into Manila surrendered, eastern Cuba losses as they are now sustaining. taken and Porto Rico practically ours, and only glory reflected from both navy and army, the deep down desire is for peace. Congress adjourned and the senators have sought out cool resorts. They have their constitutional rights in the premises and will get around in time in special session or otherwise. But the conditions will be adjusted by the president. The senate can refuse to ratify, but it cannot command the president to make another or different one, Neither can it force him to carry on the war. It is the kind of case where husband and wife are one, but the husband is that one. Naval and military operations will have ceased and the terms have been agreed upon before the senate is even convened, by which time the country will have settled down and stuff his ears with cotton. to business, knowing that the war is ended. The man who was compelled to bear the responsibilities of the war will fix the terms of peace.

IGNORANT BLISS

When the Charleston opened out on the principal port of the Ladrones the inhabitants had not even heard of the war between America and Spain.
